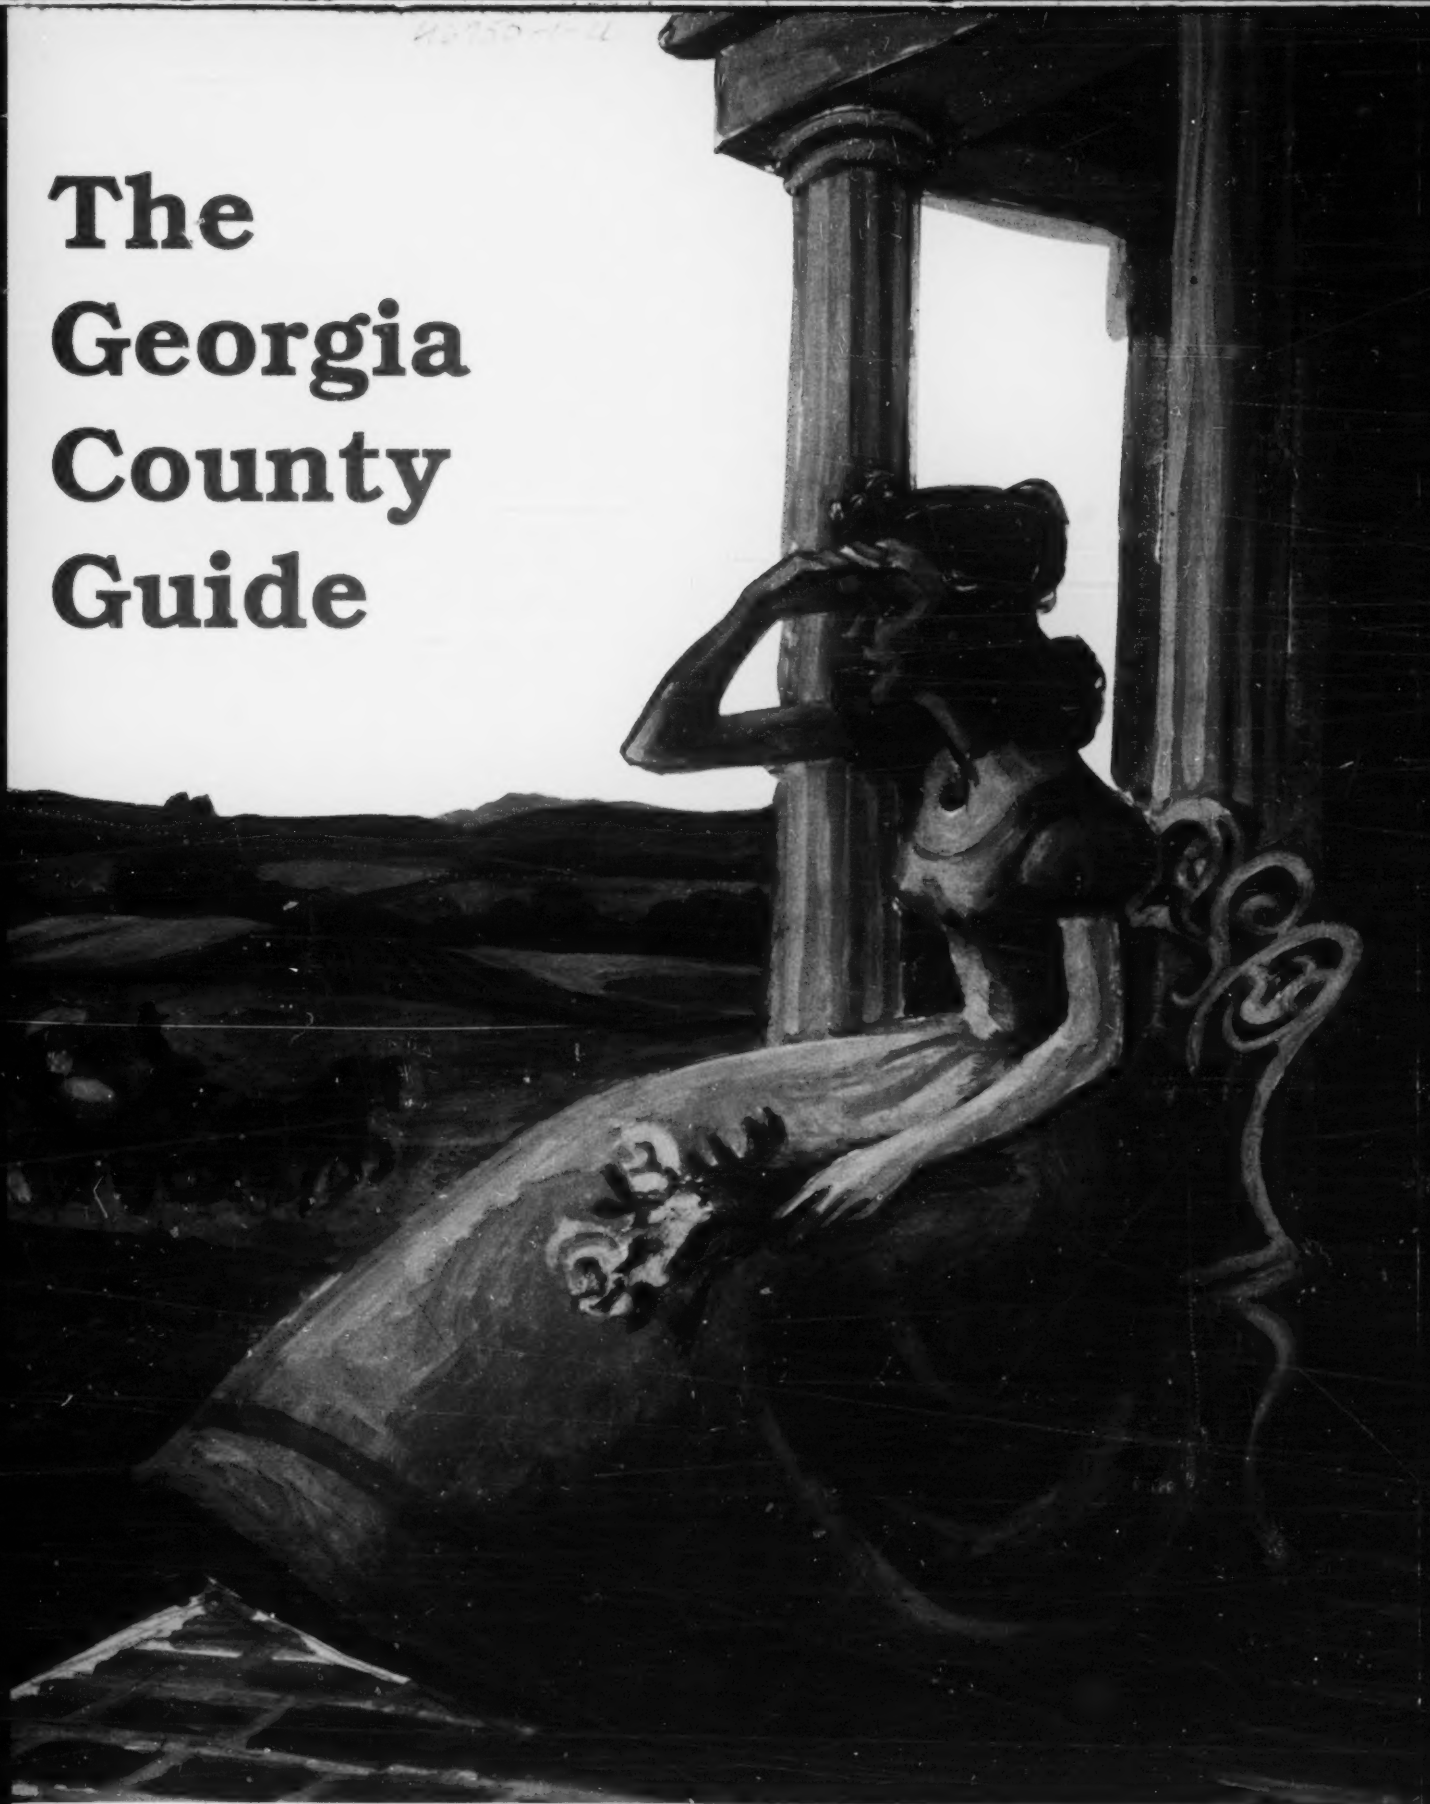
The Georgia County Guide



The University of Georgia • Cooperative Extension Service • College of Agriculture • Athens

COOPERATIVE
EXTENSION
SERVICE

THE UNIVERSITY OF GEORGIA COLLEGE OF AGRICULTURE ATHENS, GEORGIA 30602

Office of the Director

Dear Friends:

The Cooperative Extension Service developed the Georgia County Guide in order to provide citizens and leaders with information so they can make informed decisions based on the needs of their communities.

As we strive to improve the quality of life in our state and communities, local citizens, government officials, business and religious leaders must continue to work together in a spirit of mutual cooperation. Access to information will help our decision makers to more efficiently capitalize on existing resources.

The 1988 County Guide is one of many efforts undertaken by The University of Georgia's Cooperative Extension Service to provide information and assistance to the State and its local units of Government. For more information on assistance available, contact any county Extension office.

Sincerely,

Tal C. DuVall

Tal C. DuVall
Director

A State Partner in the Cooperative Extension System

Reported Cases of Child Abuse, Alcohol and Drug Related Deaths 172-173
Sexually Transmitted Diseases, Suicides 174-175

APPENDIX **176-178**

SOURCES **179-185**

Editor's Note

The 1988 Georgia County Guide contains 81 tables of agricultural, educational, economic and demographic facts and figures for all 159 of Georgia's counties, plus 11 maps collected from 32 federal and state agencies and 6 private companies.

The principal concern is that the Georgia County Guide should be an accurate, up-to-date and easy to use reference work. The contents of this publication can be reprinted or otherwise used without written or oral authorization, but acknowledgment of the proper source would be appreciated. Individuals and organizations are encouraged to use the material for planning purposes.

A very special thanks to Sue Boatright. The entire project would never have been completed without her dedication, hard work and valuable suggestions. Her assistance is deeply appreciated.

Thanks must also be given to Cletus Stripling, William White and Leslie Studdard for all of their help.

Suggestions from users, plus the development of a better system to manipulate data, have enabled us to improve and expand the format. Comments, corrections and suggestions for additions to or improvements of this work are invited.

This years cover and all previous covers were painted by Vincent Keesee. The covers are intended to show the historical transition of daily life in Georgia.

* Metropolitan County
-- Not reported
\# Base figure too small to meet statistical standards for reliability of derived figure.

1
This information was compiled from estimates supplied by county Extension agents for educational purposes only. Numbers represent acres of irrigation systems, not irrigated acreage. Due to double cropping practices the actual irrigated acreage could be 20-30 percent higher than these numbers.

2
Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Livestock and Poultry Production: 1984–1987

* Metropolitan County

--Data not available due to disclosure criteria

[1] See Appendix

[2] Rank: 1 = highest (range, 1-159), [3] (range, 1-156)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1] Commitment of a child to the department of Human Resources was instituted by law in 1963 and implemented by the Division of Youth Services in 1965. It is often the final disposition of the Juvenile Court when probation or other counseling services have failed to pervent a chronic or serious offender from returning to the attention of the court.

[2] Population at Risk--Ages 10-17

* Metropolitan County

-- Ten counties not submitting data

[1] Sworn Officers are authorized to exercise the power of arrest.

[2] Rank: 1 = highest (range, 1-148)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Index Crimes Reported: 1988

* Metropolitan County

0 Represents an increase or decrease from a zero base.

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

NOTE: These figures solely reflect reports of incidence of crime by law enforcement agencies in each county to the Georgia Crime Information Center.

Reported DUI Arrests: 1979-1985

* Metropolitan County

NA Not Applicable

\# Represents an increase or decrease from a zero base

[1] Rank: 1 = lowest (range, 1-159), [2] (range, 1-152)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[3] See Appendix

$ Metropolitan County

\# Represents an increase or decrease from a zero base

NOTE: Data excludes those incarcerated in a county jail awaiting transfer to a state prison as of December of each year.

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Business Patterns: 1980-1985

	Number of Establishments [1]						Percent Change	Number of Employees [2]						Percent Change

* Metropolitan County

[1] An establishment is a single physical location where business is conducted or where services or industrial operations are performed.

[2] Employment is the count of employees during the pay period that includes March 12, as reported on Internal Revenue Service Form 941, or as corrected by estimates in those cases where it was incompletely or improperly reported.

* Metropolitan County

1
Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1]
Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1] Master Economic Rank is determined by using the information of personal income, sales tax receipts, motor vehicle tags, and assessed property value.

[2] [3] Based on sales tax; Reported on Georgia Returns

[4] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Median Family Income, Total & Black: 1959-1979

* Metropolitan County

x Data not available

[1] [2] [3] [4] Rank: 1 = highest (range, 1-159), (range, 1-148), (range, 1-145), (range, 1-123)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Per Capita Income: 1980-1984

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

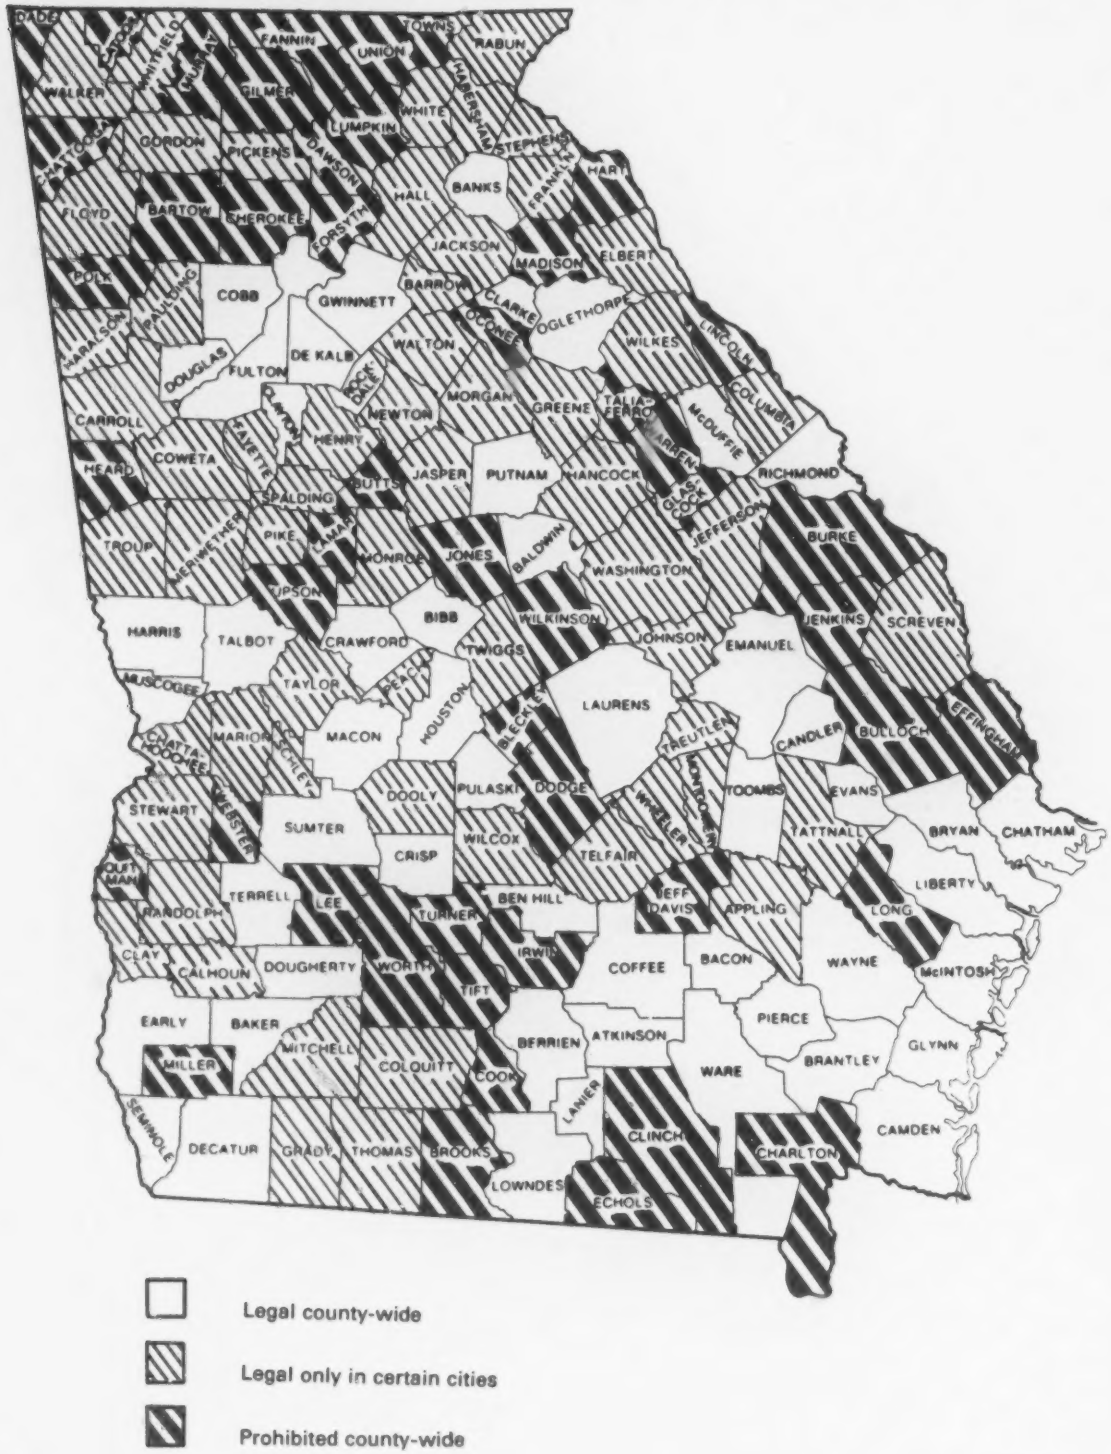
-- Data not available

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Sale of Alcoholic Beverages—Beer: 1987

ECONOMICS

Sale of Alcoholic Beverages, Legal Distilled Spirits: 1987



County Systems: Basic Skills Test Scores: 1983-1986

* Metropolitan County

--High school students attend neighboring county schools.

1
Includes special education students' scores.

2
Special education students' scores not included
Toombs county average score = Toombs county + Vidalia city scores averaged together

3
Passing criteria were increased in 1986.

County Systems: Failures by Grade: 1985-86

	Elementary			Middle School			High School			Total Failures			
	Number of Failures grades K-5	% of Total Failures	Percent Change in Number from 1984-85	Number of Failures grades 6-8	% of Total Failures	Percent Change in Number from 1984-85	Number of Failures grades 9-12	% of Total Failures	Percent Change in Number from 1984-85	Total Number	Percent Failures of Total Enrolled	Rank of %	Percent Change in Number from 1984-85

* Metropolitan County
\# Represents an increase or decrease from a zero base.
NA--Data tabulation not appropriate

[1] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[2] Total includes failures from special education category.

County Systems: Number of Schools, Enrollment, Average Daily Attendance, Graduates, Dropouts: 1985–86

	Number of Schools	Total Enrollment	Percent Change in Enrollment 1984–85 to 1985–86	Average Daily Attendance	ADA as a Percent of Total Enrollment	Dropouts			Dropouts Grades 8–12	Grades 8–12 Dropout Rate[1]	Graduates

* Metropolitan County
** Tri-County High (Marion, Schley and Webster) included in Marion; Baker High included in Mitchell; Quitman High included in Stewart.
-- Data not available

1 2
Masters Degree or higher; Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

3
For the 1984-1985 school year, the base salary for beginning teachers was $14329; $16000 in 1985-1986.
Some school systems supplement the base salary.

-- Data not available

[1] Masters Degree or higher

[2] Rank: 1 = highest (range, 1-28)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[3] For the 1984-1985 school year, the base salary for beginning teachers was $14329; $15000 in 1985-1986. Some school systems supplement the base salary.

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Universities, Colleges and Technical Schools: 1987-88

* Metropolitan County

[1] [2]
Rank: 1 = highest (range, 1-158), (range, 1-155)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Georgia Representative Districts: 1988

Georgia Senatorial Districts: 1988

U. S. Congressional Districts: 1988

Accidents by Major Industry Division: 1985

* Metropolitan County

[1] Revised rates used

[2] Rank: 1 = lowest (range 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1] Rank of size and population: 1 = largest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[2] Population per square mile is calculated by dividing the total county population by the number of square miles in each county.

* Metropolitan County

Represents an increase or decrease from a zero base

[1] Rank: 1 - highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Components of Population Change: Natural Increase and Net Migration: 1980-1986

* Metropolitan County

[1] Estimate from Office of Planning & Budget

[2] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[3] "Other" includes military statistics for the years 1980 and 1981.

* Metropolitan County

[1] An urbanized area consists of a central city or cities and surrounding closely settled territory ("urban fringe").

[2] Urban areas are places with 2500 or more inhabitants.

[3] A farm is a place with $1000 or more in sales of crops, livestock, or other farm products during the preceding calendar year.

$ Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

1
Population for 1980 included for comparative purposes

2
Rank: 1 = largest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

POPULATION

Total Population: 1930-1980

* Metropolitan County

[1] Rank: 1 = largest (1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Medicaid Recipients, Households Participating in the Food Stamp Program: 1983-85

	Medicaid Recipients							Households Participating in the Food Stamp Program

* Metropolitan County

1
Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Social Welfare, AFDC to Families and to Persons Under 18 Years of Age: 1983-1985

	Aid To Families With Dependent Children Grant Groups							Persons Under Age 18 Receiving Aid to Families With Dependent Children

* Metropolitan County

[1] Aid to Families With Dependent Children

[2] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

RECREATION

Location of State Parks and Historic Sites: 1988

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Interstate Highway System: 1988

Motor Vehicle Registrations (Estimated): 1986

* Metropolitan County

[1] Rank: 1 = highest (range, 1–159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[2] See Appendix

* Metropolitan County

1
Live birth: a newborn showing any evidence of life (breath, heartbeat, or movement of voluntary muscles) after complete birth
Low birth weight: live birth with a weight of less than 2,500 grams

2
White and black figures do not equal total number in every case due to the presence of other minorities not included in either racial category.

3
See Appendix

* Metropolitan County

[1] White and black figures do not equal total number in every case due to the presence of other minorities not included in either racial category.

[2] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

VITAL STATISTICS

Marriages: Total Number, Rate, Black and White: 1983-1986

* Metropolitan County

\# Represents an increase or decrease from a zero base

[1] Rank: 1 = highest (range, 1-159); Rank: 1 = lowest (range, 16-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[2] Rate = number of reports/population X 1000

Sexually Transmitted Diseases, Suicides: 1983-1986

* Metropolitan County

\# Represents an increase or decrease from a zero base

1 2
Rank: 1 = lowest (range 2-159); (range, 21-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

APPENDIX

In every table counties with an asterisk (*) beside their name are metropolitan counties.

A metropolitan county is a county that is part of a Metropolitan Statistical Area (MSA). All other counties are nonmetropolitan counties. In 1987 Georgia had 38 metropolitan and 121 nonmetropolitan counties.

The general concept of a metropolitan area is one of a large population nucleus, together with adjacent communities which have a high degree of economic and social integration with that nucleus.

Each MSA has one or more central counties containing the area's main population concentration: an urbanized area with at least 50,000 inhabitants. An MSA may also include outlying counties which have close economic and social relationships with the central counties.

Pages 15-16 AGRICULTURE
Number of Farms, Harvested Cropland: 1969, 1974, 1978, 1982

A farm, as defined for the 1974 final reports and the 1978 and 1982 census, is any place from which $1000 or more of agricultural products were sold or normally would have been sold, during the census year.

The following definition (used for the 1959, 1964, and 1969 censuses, and for the 1974 preliminary county reports) counted a farm as any place with less than 10 acres from which $250 or more of agricultural products were sold normally or would have been sold during the census year, or any place of 10 acres or more from which $50 or more of agricultural products were sold or normally would have been sold during the census year.

Pages 19-20 COURTS
Superior Courts' Case Loads: 1986

1-- Indicates the docketing of the complaint or petition that initiates the case. Civil Dockets include the majority of all civil actions before the court including contracts, torts, domestic relations, and routine proceedings such as garnishments, foreclosures, and dispossessories.

2-- Termination of the action. This includes settlements and dismissals before trial judgements as well as trial termination.

3-- Backlog. Criminal cases 4 months to 6 years; civil cases 6 months to 6 years.

4-- Indictments and accusations docketed in the court during the calendar year.

5-- Terminations of cases in the calendar year. When dispositions exceed the filings, this indicates the termination of cases which have been filed in the calendar year and cases from the previous years.

County Systems and Independent City Systems; Number of Schools, Enrollment, Graduates, Average Daily Attendance and Dropouts: 1985-1986

$$\text{Dropout Rate} = \frac{\text{Dropouts (Grades 8-12)}}{\text{Enrollment (Grades 8-12)}} \times 1{,}000$$

APPENDIX

Pages 74-75 **GOVERNMENT**
Government Employees; Federal, State and Local: 1986

$$\text{Government Employee Rate} = \frac{\text{Government Employees}}{\text{Total Population}} \times 10{,}000$$

Pages 85-86 **HEALTH**
Leading Causes of Death: 1986

Neoplasms--Includes malignant neoplasms.

Diseases of the Circulatory System--Includes hypertensive, ischaemic and cerebrovascular diseases, diseases of the arteries and capillaries, and other forms of heart disease.

Diseases of the Respiratory System--Includes influenza, pneumonia, and chronic obstructive pulmonary disease.

Injury and Poisoning--Includes motor vehicle accidents, suicides, homocides, and all other accidents.

Pages 93-94 **HOUSING**
New Privately Owned Housing Units Authorized in Permit Issuing Places: 1976-1986

The information for 1984-1986 was collected from approximately 17,000 places identified as permit-issuing in 1984. This universe accounts for a major portion of new residential housing units started in the United States. In 1986, about 92 percent of all new private housing intended for occupancy on a housekeeping basis was constucted within permit-issuing places. Permit data for 1976-1983 were tabulated from a 16,000 permit place universe.

Pages 113, 114 **NATURAL RESOURCES**
Water Use: 1985

$$\text{Public Use Per Capita} = \frac{\text{Public Use (in Gallons)}}{\text{Population Served}}$$

Pages 160-161 **VITAL STATISTICS**
